ABOUT

Passionate, Motivated, and eager to learn new technologies and seek opportunities to contribute to big projects. I want to grow within a collaborative and forward-thinking team environment and want to expand my skill set.

PROJECT

- **Tour Escort**
  The Tour Escort system is a dynamic website created with PHP and MySQL, tailored for travel agencies to manage tour packages and simplify the booking process efficiently. It has an intuitive interface for agents and acts as a centralized hub for all travel arrangements, making trip planning and booking seamless and user-friendly for tourists.

- **Portfolio Website**
  Developed a portfolio website to showcase my skills and projects. Made a clean and responsive design for an optimal user experience across devices.

- **Weather-App**
  Developed a weather website that provides real-time weather updates and forecasts of the entered location using JavaScript and weather API.
